Node labels:
- Pyrimidine nucleosides
- Macrolides and analogues
- Quinolizidines
- Purine nucleosides
- Pyridines and derivatives
- Diazines
- 5−deoxyribonucleosides
- Furofurans
- Saxitoxins, gonyautoxins, and derivatives
- Azolidines
- Dihydroisoquinolines
- Organic phosphoric acids and derivatives
- Quinolines and derivatives
- Carboximidic acids and derivatives
- Pyrrolidines
- Macrolactams
- Thiazinanes
- Indolonaphthyridine alkaloids
- Coumarins and derivatives
- Glycerolipids
- Daphniphylline−type alkaloids
- Indanes
- Cinnamic acids and derivatives
- Benzophenanthridine alkaloids
- Strychnos alkaloids
- Keto acids and derivatives
- Aspidospermatan−type alkaloids
- Azepines
- Organic carbonic acids and derivatives
- Naphthopyrans
- Anthracenes
- Diarylheptanoids
- Fatty Acyls
- Allyl−type 1,3−dipolar organic compounds
- Polycyclic hydrocarbons
- Cycloheptapyrans
- Oxepanes
- Organochlorides
- Vinylogous acids
- Aryltetralin lignans
- Sphingolipids
